The Democrats of Texas and Missouri are said to be solid for Cleveland in 1888. The current of public opinion is setting in steadily and surely in the direction of the defender of the people's rights.

As a vetoer, Cleveland has far surpassed As a vetoer, Cleveland has far surpassed any and all of his predecessors. The fact of the matter is he never signs a bill until he thoroughly examines it and knows just what it contains. That's the kind of a man the country wants for President. President.

It is a heroic measure, but it would do the business."—Louisville Times.

What it Means.

What it Means.

We have been asked the question time and again, "what does this railroad proposition mean?" The ordinance is published elsewhere and answers the question fully, but the trouble is the majority of readers will not take time to study the matter and find out for themselves. We will try to answer the question here and now. The ordinance says:

"At which elseiton the question shall be submitted to the qualified voters of this city whether the City Council of the city of May-ville shall subscribe in the name, and on behalf or shall city, 80000 to the cupit of slock of half or shall city, 80000 to the cupit of slock of half or shall city, 80000 to the cupit of slock of half or shall city, 80000 to the cupit of slock of half or shall city, 80000 to the cupit of slock of half or shall city, 80000 to the cupit of slock of half or shall city, 80000 to the cupit of slock of half or shall city.

"If it shall appear that a majority of all the votes cast shall be m/mor of said subscription, the City Council will so adjudge, and cause this fact to be duly recorded in the minutes of its proceedings, and such record shall be re-garded as the option to 180,000 of the capital slock of the Mayerille and Big Sandy Kaliroad Company, but subject to the conditions bereinather expressed."

This is plain enough. The vote is to be taken upon a question of subscribing \$80,-000 to the railroad. This condition is qualified and is to be made on certain conditions. Now what are the conditions

conditions. Now what are the conditions upon which it is to be made? The ordinance goverus here as elsewhere, and

SAY:

And again, further along, it adds:

"And said J. James Wood and others, the committee, are authorised to use so much of said certificates (80,000 as may be necessary to obtain said right of way. And on accepting said certificate, said J. James Wood and others said criticates, said J. James Wood and others said right of way. The committee to whom the certificates The committee to whom the certificates of indebtedness which will be issued for the \$90,000 (if voted) are to be delivered is composed of Messrs. J. James Wood, R. B. Lovel, Richard Dawson, W. S. Frank, L. W. Robertson, James Shackle-ford, John H. Hall, John N. Thomas, W. B. Mathews, and A. M. J. Cochran. These certificates are to be used by them for procuring cash with which to buy the vibits of way but they are understood to procuring cash with which to buy the rights of way, but they are understood to bind themselves to apply the subscription from the county and other sources, when it becomes available on the completion of the road, to redeeming these certificates. If the rights of way should cost no more than the first estimate, and no more than the other subscriptions amount to, the city subscription would all be cancelled. But if it should cost \$10,000 more, then that sum would be all be cancelled. But if it should cost \$10,000 more, then that sum would be added to the city's indebtases; if it should cost \$20,000 more, then the city would have that much to pay and so on. The \$80,000 can all be used, if needed. All should act intelligently in the matter. The committee claim the \$50,000 from the county will be used to cancel the city subscription, and it's very likely this will be the case. There is no use in getting scared before one is hurt.
